

Invitation to the HERON Final Dissemination Event

The [HERON project](#) Consortium cordially invites you to attend its final project dissemination event, where we will reveal the **tangible, operational results** achieved in our mission to create sustainable, greener aviation across Europe.

The event is not just a presentation, it is your opportunity to engage directly in marketplace sessions and network with the experts responsible for the **23 large-scale demonstrations** that led to **13 SESAR Solutions** (including 8 brand new concepts) and **10 innovative concepts** that are now driving significant reductions in CO₂ emissions, fuel use, and community noise.

- **Date:** Friday, 28 November 2025
- **Time:** 10:00 – 17:00 CET
- **Venue:** EUROCONTROL Headquarters
- **Address:** Rue de la Fusée 96, Brussels 1130, Belgium

Deep Dive with Marketplace Sessions

In addition to the main stage presentations delivered by experts, the event features **two dedicated Marketplace Sessions**, allowing you to engage directly with the technical leads behind each core demonstration area (**Improved Trajectory Planning** and **ADS-C Common Services, Integrated 4D Trajectories, Optimised Approaches**, and **Green Surface Operations Management**) for detailed Q&A and practical insights.

The agenda will be shared closer to the event.

Registration Information

Participation in the HERON Final Dissemination Event is **free**, but **registration is mandatory** due to venue security requirements. To secure your place, please complete the registration form below:
